

Recruitment solutions that provide the skill to stay ahead.

For those operating within the fast paced, ever developing Aerospace sector, the demand for high-calibre, skilled workforce professionals is paramount. Companies must recruit the best possible candidates on the market to provide them with the competitive advantage they need to stay ahead.

ATA's experienced Aerospace team consists of highly skilled consultants and resourcers, with a proven track record in this sector, who are able to assist with all levels of recruitment within the industry. Utilising proven techniques they are able to identify active and passive job seekers that will add true value back into the recruiting business.

With an existing client base of key aerospace companies, we have the experience and market knowledge to provide technical recruitment solutions for the following:

Industry expertise

- Design
- Maintenance
- Engineering
