

ATA Energy is an established and fast growing Technical Recruitment Consultancy, with a focus on the supply of high calibre Engineering / Technical candidates to the Renewable, Oil & Gas and Power Generation sector throughout the UK and Worldwide.

We enjoy an excellent reputation and outstanding commercial success for delivering a service totally in tune with the needs of clients and job seekers alike. Our ability to add value to all levels of permanent and contract recruitment stems from our ethos of partnership, bespoke problem solving and individual solutions. We work closely with all our clients and candidates to maintain long-term, mutually beneficial relationships.

ATA Energy is able to assist with all recruitment areas within the Energy Industry: Renewables, Power Generation, Nuclear, Fossil fuels and Oil & Gas.

Our experienced consultants are able to offer a number of enhanced recruitment solutions and methodologies depending on the need:

- Contingency supply
- Advertised search and selection
- Retainer Exclusive supplier
- Executive Search and Selection "Headhunting"

ATA Energy is able to draw upon the full resources of our Group to support delivery to all clients including the utilisation of our 12 regional offices.
