

## ATA Rail – Reliable Recruitment Solutions

ATA Rail's Trains division is specifically focussed in the provision of operational, commercial and engineering personnel on a permanent and contract basis to clients including;

- Train Operating Companies
- Freight Operating Companies
- Rolling Stock Manufacturers
- Vehicle Maintenance, Refurbishment and Overhaul Specialists
- ROSCOs
- Design & Project Management Consultancies

### Our Capability

Drawing upon the support of the skills and resources within the group, ATA Rail is uniquely positioned to provide bespoke solutions that increase the probability of our clients recruiting the best talent available in the marketplace. Whether employers need candidates with specific experience of the sector, or can accommodate those individuals with transferable skills from other industries, ATA Rail's recruitment process meets all of these needs.

ATA Rail has a proven track record recruiting for:

- Maintenance
- Reliability / Performance
- Production / Depot Management
- Materials

- Project Management
- Drivers / Driver Management
- Procurement
- Testing / Commissioning
- Commercial / Contracts Management
- Design & Development
- Directors / Strategic Management

As part of the RTC Group, ATA Rail combines 35 years of specialist technical selection with 75 years of rail safety training.

### Organisation Structure

Operations management, compliance and training, and support services are managed in Derby. Delivery is managed from our satellite locations depending on our client's requirements. This structure is entirely scalable by effective utilisation of our existing regional network.

- |              |              |           |
|--------------|--------------|-----------|
| • Glasgow    | • Derby      | • Fleet   |
| • Newcastle  | • Birmingham | • Slough  |
| • Manchester | • Leicester  | • Enfield |
| • Leeds      | • Bristol    | • Clapham |

ATA Rail draws on the full resources of our Group to support delivery to all clients including the utilisation of 70 recruitment staff across our 12 regional offices.

As a dedicated rail industry recruitment specialist, ATA Rail has extensive marketplace understanding allowing us to place candidates with clients in a fast, highly efficient and mutually beneficial fashion.

ATA Rail source candidates for permanent and contract roles throughout the UK and Worldwide.

### Global Reach

Increasingly called upon to support client projects worldwide ATA has developed specialist rail recruitment capability covering permanent and temporary roles in;

- Design
