

ANNUAL REGIONAL MAINTENANCE SALARY REPORT 2020

A comprehensive report of average maintenance salaries by region in 2020, compiled using real recruitment data

INTRODUCTION

With over 50 years experience in the provision of recruitment solutions for manufacturing and engineering, ATA Recruitment have established themselves as market leaders. Not only do we pride ourselves and providing a quality service, but we like to share our market expertise with you too.

You may have already seen our permanent salary survey report detailing the average salaries offered to our candidates in 2020. The recruitment of maintenance engineers across the UK is a huge proportion of what we do, so we thought we would give you a more detailed breakdown of the market.

2020 was a challenging year for everyone due to the pandemic and economic uncertainty caused by it. However, the need to attract and retain good quality Maintenance Engineers is still an ongoing challenge for our customers.

We continue to see a widening skills gap in the market, and the rapid growth of markets such as automated distribution has seen companies constantly reviewing and increasing their salaries in an effort to remain competitive.

The data we have collected has come from a large cross section of the market for both SME's and large blue chips in industries such as, Food, Automated Distribution, Construction Materials, FMCG, and General Manufacturing.

We hope it gives you a benchmark for where you are in the market, please get in touch to discuss the findings of this report in more detail.

A handwritten signature in black ink that reads 'C. Addison'.

Chris Addison, Director

SALARIES BY REGION

YORKSHIRE

Mechanical	£34,500
Electrical	£38,500

ATA RECRUITMENT, EXPERTS IN MAINTENANCE

- We have added 11,000 fully registered Maintenance Engineers to our database in the last 5 years
 - 65% of placements in 2020 came from candidates on our database, many of whom weren't actively looking for a new role
 - On average, it took us just 25.2 working days to place a Maintenance Engineer, and only 21 if the candidate was already on our database
- 

ABOUT ATA RECRUITMENT

ATA Recruitment has been supporting the growth of the engineering and manufacturing sectors for over 50 years. We're passionate about attracting and retaining people in the industry, so our expertise lies in helping our clients find the best talent suited to their business needs. It's the combination of our people, industry knowledge and proven processes that really makes us unique, allowing us to provide tailored recruitment and workforce management solutions to companies all over the UK.
